effect and the result of the treatment only and not with the science thereof. If not, better you don't entrust your case. If the case is totally by gone and completely hopeless and if the JST decides to decline to accept it, it may do so. Even in the case of impending death, it can be made calm and peaceful. Even the life after the death can be healed. There can be choice in death on the basis of emotion, ignorance or awareness. Nothing is miracle. it is pure science.

Mode Of Payment

Truthfully speaking Time and Trust is our exchange of energy. We charge time. But monetarily speaking we run all our services solely on donative basis i.e. No profit no loss basis, thus we charge only the expense incurred to provide necessary facility and arrangements to the patient. Afterwards if they wish they can donate whole-heartedly for the selfless service received by you, in this way all these services are supported by those who have been benefited and transformed by joining the JST. Such donations are the only sole source of funds for the Alliance for its future expanding technology. This is further utilized to research herbs and medicines of various diseases for social cause.

SCHEDULES OF PAYMENT

As to the mode of payment you have to pay to the representative as and when required to be incurred without any delay from time to time for continuing smooth and speedy treatment and other arrangements. If your case does not require personal individual medicinal treatment in the opinion of our JST, you may be advised to attend a 2 day basic weekend Health awareness and healing camp. Otherwise normally patient's goes through above payment schedules:

1. On sight consultation and counseling fees.
2. An advance payment as the budget is given.
3. Full and Final payment as the medicine is given.
4. Extra payment for any Alternative therapy as required.
5. Extra charges for diet prescription and facilities required.
6. After fully resurrection donation to the JST.

Where We Do?

After counseling, we send him back to his house and again call him for further investigation with the past history of the present disease. After the full satisfaction of detail information the case has been put up in the JST and if required then for the last time we call him to our place or we can go either for final consultation and examination. Before starting the course we cross question his family members and clear their doubts, then the registration form should be signed properly in presence of them.

After fulfilling all formalities we give an estimated budget for 1 month initial on trial basis, after compilation of payment we take his case confirm and then start to make necessary arrangements and medicines for him. The word Sanjeevani should be understood properly otherwise most of the time we misinterpret it as some magical, mysterious, spiritual or divine power. Some people misinterpret it as traditions, rules, rituals, moralities or practicing austerities. But the essence has been concealed or has disappeared. Sanjeevani is an ancient ayurvedic term which means "giving rebirth" i.e. a system through which we can postpone, prolong or get Life reversing, revitalize, revive and rejuvenate from the mouth of death at any cost.

OUR MISSION

The said Trust Jeevan Sanjeevani is ceaselessly engaged in raising and restoring Social as well as spiritual human values, life awareness, Energy & Potentially encourages people from all backgrounds, religions, age, sex, sect, caste, creed, country, cultural traditions and groups from all over world to come together in spreading health, harmony, healing and Happiness with celebration and service throughout the organic planet earth for its betterment and bright future.

These programs organized, conducted and managed by Jeevan Sanjeevani eliminates stress, purify mind, ground and release negative emotions which release stress and toxins at the physical, mental and emotional level, and the programs in turn bring true relaxation, peace of mind, enthusiasm and energy.)

Such activities highly support Physical - Mental Emotional - Spiritual balance and total well-being scientifically with "ancient wisdom and modern technology" for today's modern world, uplifting human consciousness and bringing harmony, peace, unity, trust, happiness, Joy, love, Self control, discipline, and devotion among the people, for the noble cause of humanity, confirming the fact that physical soundness depends upon Mental soundness, this in turn on Spiritual soundness.

When fear, doubt, and worry consume us, we can use these techniques as a tool to ground us in the reality of the situation. This grounding will not only assist in creating an internal harmony, but it can also help to quiet down the collective consciousness of our planet.

As we enter a new phase in our world's evolution it is more important than ever to find strategies that can bring us healing, peace and comfort. Jeevan Sanjeevani is an invaluable tool to help us cope with the changes that are upon us.

Body and Mind are like the two wheels of a cart interconnected and demanding a harmonious balance between the two. We all know the ways of caring, cleaning and conditioning our bodies but how many of us really know the ways of knowing, refreshing, tiding up and enriching our mind without any external source of assistance. WHAT WE ARE?

Jeevan Sanjeevani is Team (JST) of devoted, dedicated, determined & experienced health experts from all over world. Our team loves to serve you selflessly for mere joy of heart and no other motive. JST works in an integrated, unified and unique way. It is first of its kind in the world. Its base is purely spiritual enveloping, pervading and encompassing all the aspects and levels of your life as a whole. Its function is to relieve you of your disease and put you at ease. It revives, revitalizes and resurrects you to live a lively life.

In JST many ayurvedacharya, Ustad, Hakim, Vaidya, Lama, Astrologers, Siddhas & other health experts from all over the world, who are not only mere doctors par excellence but also one of their kind brahmishi or tatva veta sant (i.e. knower of elements and their nature, effects, and causes); who treat and cure all types of illnesses of body, mind and soul, known unknown, through meditations, ayurvigyan, vedic beej mantras & religious philosophies of Universal religion and ayurvedic, Himani, Tibetan, Siddha & unani medicines.

JST strongly believes that "Lack of will means you are ill." means one always get ill first in mind and then in the body with the time as it gets manifested. So treating just body wouldn't be sufficient, till the time, mind is not treated well similarly vice versa. Body is effect i.e. superficial and mind is the cause i.e. centre. So JST strongly believes in cutting the root cause of the disease permanently and not treating superficially i.e. temporary.

JST understands that, all illness in the self originates from karmas, of both the self and others, in the past and are delivered to the self through the mind or attitude of self. So for a perfect total health one needs to be operated on the both plane simultaneously i.e. Body + Mind at a time than a certain fruitful result can be expected out the treatment.

JST is not only about treating diseases but also it helps to understand the message of the universe i.e. the karmic lesson from disease by self Inquiry, observation & realization. So in order to get healing from within, one has to acknowledge & accept one's own reality of the past committed sins due to which one happens to the universal punishment.

JST makes sure that, the cycle of the disease should never repeat in the whole lifetime. So once the healing process progresses, then the patient

has to confess and has to take strong determination to overcome of the addiction, Habit or unawareness & not to repeat the same mistake again. JST knows that a true health is only possible when patient is treated from the both way i.e. from inner and the outer. So whatever the treatment is given from outer is of the science of Medicine & the method to heal inner scar is Meditation.

JST offers result oriented treatments to millions, throughout the country and abroad. Thus any person or patient whose case is submitted to JST, start recovering from the very first day as his photograph is kept in "prayer healing circle."

WHY WE ARE?

Jeevan Sanjeevani is an integrated and intensive reviving, revitalizing, Re-creating and rejuvenating process virtually resurrecting you, removing negativities and instilling positivities in you at all the strata of your life. It begins where mere medical science ends. It has no adverse side effects unlike allopathy. May it be your any serious stress, sickness, illness, disease or malady. Let it be on physical, mental, emotional, and intellectual or any other level. Here is surely and certainly a satisfactory solution through our innovative, intensive, integrated, exhaustive, holistic approach. This treatment is all-inclusive and harmonious. Its center is YOU, your real welfare, and a healthy, harmonious life really worth living. You are healed, treated and guided in the minutest details as and when needed by our representative.

Our team uses all the scientific research and development of all such fields fully and effectively for your holistic treatment with top priority to your present problem. It is individually available to anyone anywhere.

What We Do?

The JST believes that accurate diagnosis is half and Right guidance is fully cured. Thus we believe that any single person or path will not be sufficient or sometimes it is unable to achieve final recovery within span of time so a team work plays a great role where everyone works under one roof simultaneously with the spirit "more of we and less of I". Thus we solve the case spiritually as well as materially simultaneously. The patient gets all help and guidance which in turn he recovers fast with the less amount of drug permanently, building parallel awareness about his self past deeds and karma with understanding the present time phase he is traveling now.

Team's representative studies your case and prepares its data in details and submits it to the Research Team. Then the whole cases are thoroughly discussed and studied and if needed further details are sought for. It finally decides its Line of Action. The 'How' and 'Why' of Line of Action remain TOP SECRET and never revealed even to the representative. No member of the Team has any expectation for wealth, power, name or fame. Hence their names are also not revealed. You have to be concerned with yourself and the effect and the result of the treatment only and not with the science thereof. If not, better you don't entrust your case. Even in the case of impending death, it can be made calm and peaceful. Even the life after the death can be healed. There can be choice in death on the basis of emotion, ignorance or awareness. Nothing is miracle. It is pure science.

As to the mode of payment you have to pay to the representative as and when required to be incurred without any delay from time to time for continuing smooth and speedy treatment. On completion of your treatment, you owe a duty unto yourself under the inviolable spiritual law of Energy v Energy to donate whole-heartedly for your own benefit for the selfless service received by you.

If your case does not require personal individual treatment in the opinion of our Team, you may be advised to attend a two day free basic course.

The decision of the Team to accept or reject the case or to continue or discontinue the selfless service at any time shall be final, binding and not liable for any legal proceedings for anything or for reimbursement of any amount paid or for any damages whatsoever as the case is entrusted by you totally at your own risks, costs and consequence
